

DISNEY'S GRAND CALIFORNIAN HOTEL.

Designed in California's renowned Arts and Crafts style, *Disney's Grand Californian Hotel®* is an architectural triumph. Throughout this building a rare combination of elegance and Disney comfort can be felt in every square inch.

From the breathtaking lobby, beautiful chandeliers, and elegant rooms, this hotel is a true testament to Disney creativity and vision.

The spark of imagination — where does it come from? For the *Disneyland®* Resort, that spark is ignited by the Imagineers.

Over 50 years ago, when Walt Disney was planning the theme park of his dreams, he turned to the most creative people he knew — the artists responsible for the award-

winning animated movies of the Walt Disney company.

He hand selected this group to visualize, design and build *Disneyland®* park. Today, the Imagineers are responsible for every Disney theme park throughout the world. But we will always remember — it all started in an orange grove in Southern California.

How can innovation come to life?

Where will new ideas be generated?

When does creativity become reality?

At the *Disneyland*® Resort, we believe that inspiration can strike at any time. And where you begin your day is just as important as where you end it. That is why our hotels were designed not only to be warm and welcoming, but also to be the most creative, innovative and inspiring settings they can be. When you stay at any one of our hotels, nothing will get in the way of your creativity.

inspire. innovate. dream.

Geared to bring out the best in your group's creativity and imagination, the *Disneyland*® Resort offers the *Disneyland*® Thinking Cap Program presented by the Disney Institute.

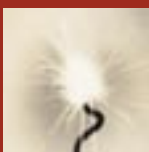

- Nurturing a Creative Culture
- Framing Up the Opportunities
- Innovation: Bringing Creativity to Life

In these and other innovative workshops, your organization will learn to think like Disney's world-renowned Imagineers – the true designers and builders of *Disneyland*® park.

Maybe the most creative group on the planet, the Imagineers are made up of architects, animators, costume designers and more. Your group will learn firsthand how to utilize the Imagineers' unique formula to become more innovative and creative thinkers.

Your guests can also experience one of our exclusive tours, A Walk in Walt's Footsteps. Through this inspirational tour your group will experience the *Disneyland*® theme park from the perspective of the man who created it.

Welcome to the Great Hall – the living room of your home away from home.

The rug of the Great Hall is a sixty foot by ninety foot hand-woven rug bearing the images of California poppies and pomegranates. This amazing work of art is bordered by perfectly blended, water-cut stones.

These stones are so precisely cut that when placed together they are practically seamless. You might also notice the poppies in the rug are closed. The Imagineers designed it that way because the rug is indoors and poppies only open in sunlight.

meeting facilities

Whether you're planning an intimate get-together or a spectacular gala, *Disney's Grand Californian Hotel*® offers the perfect environment for your group's needs.

Disney's Grand Californian Hotel® boasts 20,000 square feet of total meeting space (including the 12,000 square foot Sequoia Ballroom with spacious pre-function area) 18 breakout rooms (including seven rooms connected to relaxing terrace areas) outdoor meeting spaces and two convention registration centers solely dedicated to business group needs.

Several high-tech presentation amenities are available including: remote control lighting and projection, premiere sound systems, ceiling recessed screens and satellite uplinks and downlinks. And our on-site business center is a convenient site for every guest.

Disney's Grand Californian Hotel® was designed as a tribute to the Arts and Crafts movement of the late 19th and early 20th centuries. The Imagineers adhered to the vision of the founders of the Arts and Crafts movement, who wanted to create a unified aesthetic, encompassing everything

from the architecture of a structure all the way down to the design of its furniture, fixtures and decorations. The Imagineers were specifically inspired by 6 designers: Frank Lloyd Wright, Albert Schweinfurth, Bernard Maybeck, Charles Rennie Mackintosh and Charles and Henry Greene. All in an attempt to inspire our guests.

Adding to the inspiration of this outdoor walking mall, the Imagineers designed four distinct garden areas. East Garden – taking visual cues from

early 20th century Craftsman architecture. Wine Bar District Garden – named for the vine-covered wine and tapas bar at its center. Center Plaza Garden – the heart of the *Downtown Disney*® District with an eclectic mix of restaurants and show places.
